Key Features

Cast Iron Trivets

Cast iron trivets are heavier and more durable than the typical enamel-coated trivet. This means a more stable cooking surface and less chance of damage to the cooktop. Black cast iron looks great against the stainless steel and is a material that lasts longer.

Lateral Wok Burner

Wok burners provide high heat that is needed for effective wok cooking. Not only is it suitable for Asian cuisines, it is also a powerful gas burner perfect for accelerating the cooking process. A lateral wok burner means you still have room for other pots and pans.

Made In Italy

Built to the highest quality and standards, made in Europe is the benchmark.
